DetectedX

World Class Radiology Training
for Radiologists

Built by global leaders in medical imaging and radiology education, DetectedX is an online learning center delivering proven results for users around the world.

All your CME requirements on a single platform

- Instant CME certification
- On-demand cloud-based access 24/7
- Interactive self-assessment modules, quizzes and lectures

We understand your training needs as a radiologist and we have built a package that includes all your medical imaging training fundamentals. Your CME accredited training package includes:

Self-Assessment Modules

- 2 x 30 case 2D modules
- 2 x 15 case DBT modules
- 1 x 10 case breast quality module
- 1 x 15 case CT lung cancer module
- 1 x COVID-19 detection module
- 1 x chest image quality module

4 short, case-based quizzes covering breast imaging

Suite of lectures that cover radiology principles including interpretation, quality, AI and underlying scientific principles.

DetectedX learning is fully accredited and CME / CPD certifications can be accessed upon successful completion of training.
